

To presenters at the APL 2019 Oral Sessions

ORAL SESSION GUIDELINES

Totally, there are 15 minutes for each paper including introduction of the speaker by session chair, paper presentation and discussion.

There is no PPT or PPTX template which presenters shall use. Usual good practice on amount and size of presented text should be followed to communicate clearly main outcomes even if some details must be left out.

We wish to remind authors that all presentations shall not be misused as advertisement for the companies or products. Authors' affiliation logos can be used but should not be conspicuous.

Presenters are kindly requested to be in the room for which their presentation has been scheduled at least 20 minutes before the start of the session. Presenters shall bring their presentation file to the session room ready to be uploaded onto the local PC.

The APL Scientific Committee is grateful for your contribution to the success of APL 2019 Oral Sessions. The Oral Session Chairs will report on outstanding papers that shall be considered for the APL associated events: The Young Scientist Award.
